

# Vaishnavi Vadlamudi

## Software Developer

**Full Stack Developer | Node.js • React • TypeScript • MongoDB | Remote-Ready** Results-oriented software developer with **2.5+ years** of experience building full-stack applications using **MERN stack** technologies. Strong in **RESTful API development**, **JWT-based authentication**, and **test-driven development** using **Jest**. Passionate about remote work, collaborative teams, and continuous upskilling. Currently seeking a **remote full-time opportunity** with a backend or full-stack focus.

## WORK EXPERIENCE

### Backend Developer Extended Web App Tech

12/2022 - 10/2024

#### Achievements/Tasks

- Developed backend services using **Node.js**, **Express.js**, and **MongoDB** for scalable web apps.
- Created and tested **REST APIs**; integrated **JWT authentication** and role-based access.
- Wrote and maintained unit tests with **Jest** and **Enzyme**.
- Actively collaborated on Git-based workflows using **Bitbucket**, **Jira**, and **Agile** practices.

### Technical Support Agent Accenture solutions pvt ltd

09/2019 - 04/2022

#### Achievements/Tasks

- Provided technical support to international clients, resolving user queries efficiently.

## PERSONAL PROJECTS

### E-commerce Microservices API (2025)

- **Tech Stack:** Node.js, Express, MongoDB, Docker, JWT, NGINX, TypeScript.
- Designed and developed a scalable, containerized e-commerce backend using a microservices architecture.
- Implemented independent services for authentication, product management, and API gateway, with JWT-based role authorization.
- Used Docker to enable service orchestration.

### Task-Manager-API (2025)

- Developed **Task Manager API**, a RESTful service built with **Express** and **TypeScript**, using **MongoDB** for data persistence.
- Implemented user authentication (signup/login) and CRUD operations for tasks with permission checks.

## EDUCATION

### Bachelor of Engineering Stanley College of Engineering and Technology

2015 - 2019

CGPA: 6.3

#### Courses

- Electronics and Communications (ECE)

## TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js

Backend: Node.js, Express.js, MongoDB, Postgres

Testing: Jest, Enzyme

Operating Systems: Linux, MacOS, Windows

Tools: GitHub, Bitbucket, VS Code, Jira

Cloud & DevOps: AWS (Basics), Docker (Basics)

## SOFT SKILLS

Quick Learner

Team Player

## CERTIFICATES

JavaScript & Node.js – TestDome (2025)

React - HackerRank (2024)

Web development bootcamp - Udemy (2022)

MTA certification in JavaScript - Microsoft (2021)

## INTERSHIPS

Aganitha Cognitive Solutions (04/2022 - 10/2022)

Worked with React.js, Node.js, Express.js, and MySQL for CSV data processing and database integration.

Doordarshan (06/2019 - 07/2019)

Gained knowledge of satellite communication and broadcast technologies.
