SUMMARY

Full Stack Software Engineer with 5+ years of experience building scalable web applications, frontend platforms, and API-driven systems using React.js, Next.js, Node.js, TypeScript, and PostgreSQL.

Experienced in developing responsive user interfaces, optimizing application performance, integrating backend services, and delivering production-ready features in Agile environments. Strong background in debugging production systems, collaborating across teams, and building maintainable applications with clean architecture principles.

EXPERIENCE

06/2025 - 12/2025

Freelance Software Engineer

Vigyaan Academy

- Developed responsive web applications using React.js, Next.js, and TypeScript with component-based architecture and modern UI practices.
- Built and integrated REST APIs to support real-time using Node.js and express.js.
- Optimized application performance through efficient API handling, database query improvements, and frontend responsiveness enhancements.
- Implemented modular and scalable frontend components while maintaining clean and maintainable code standards.
- Worked with responsive design frameworks including Tailwind CSS to build cross-browser compatible user interfaces.
- Collaborated closely with clients and cross-functional teams to translate business requirements into technical solutions.

12/2022 - 10/2024

Software Engineer

Extended Web App Tech

- Designed and developed scalable web applications using React.js, Node.js, PostgreSQL, and MongoDB
- Built responsive and reusable frontend components using React.js and TypeScript
- Integrated frontend applications with secure RESTful APIs and backend services
- Collaborated closely with backend developers and cross-functional teams to deliver scalable and maintainable features
- Improved application performance and responsiveness through debugging, optimization, and efficient API handling
- Developed modular and maintainable code following clean architecture and component-based design principles
- Worked in Agile development environments using Jira, Git, and Bitbucket workflows
- Participated in code reviews, troubleshooting, testing, and deployment activities to ensure high-quality delivery

04/2022 - 10/2022

Web Developer Intern

Aganitha Cognitive Solutions

- Developed full-stack web applications using React.js, Node.js
- Built responsive and user-friendly UI components following modern UI/UX principles
- Assisted in backend development, API creation, and database management
- Designed wireframes and prototypes using Figma for improved user experience

- Gained hands-on experience in end-to-end software development lifecycle

09/2019 - 04/2022

Technical Support Engineer

Accenture Solutions Pvt Ltd

- Diagnosed and resolved complex technical issues for international clients, ensuring SLA compliance
- Investigated backend and system-level issues, identifying root causes and implementing fixes
- Analyzed logs and application behavior to troubleshoot production errors
- Collaborated with development teams to resolve critical issues and improve system stability
- Maintained documentation for recurring issues and contributed to knowledge base systems
- Developed strong analytical and problem-solving skills in high-pressure environments

EDUCATION

2015 - 2019

Electronics and Electrical Engineering

Osmania University

Bachelor of Engineering

CERTIFICATES

JavaScript and Node.js

TestDome

React

HackerRank

MTA Certification in JavaScript

Microsoft

SKILLS

JavaScript

TypeScript

React.js

Redux

Next.js

Node.js

SQL

REST APIs

GitHub

MongoDB

Express.js

Context API

Linux

Docker

PostgreSQL
