Santa Venera, Malta

SUMMARY

Full Stack Developer with 4+ years of experience building scalable, data-driven web applications using React.js, Node.js, and modern backend architectures. Skilled in developing real-time dashboards, secure REST APIs, and high-performance data systems supporting monitoring and analytics use cases.

Experienced in handling complex data workflows, integrating APIs, and building responsive interfaces across devices. Strong focus on system reliability, performance optimization, and secure data handling.

Currently expanding expertise in AI-driven systems and data analytics through an MBA in Data Analytics & AI, with a growing interest in intelligent monitoring platforms and healthcare technology.

EXPERIENCE

06/2025 - 12/2025

Software Engineer

Freelance

- Developed full-stack web applications using React.js (frontend) and Node.js (backend)
- Designed and implemented responsive dashboards for data visualization and user interaction
- Built REST APIs and backend services to support real-time and data-driven applications
- Optimized application performance by improving API efficiency and database queries
- Implemented reusable components and modular architecture for scalability
- Collaborated closely with clients to translate business requirements into technical solutions

12/2022 - 10/2024

Software Engineer

Extended Web App Tech

- Designed and developed scalable backend services using Node.js, Express.js, PostgreSQL, and MongoDB
- Built and maintained secure RESTful APIs with authentication and role-based access (JWT)
- Developed and optimized data processing workflows for efficient handling of large datasets
- Integrated third-party APIs and services to enhance system functionality
- Improved system performance and reduced downtime through debugging and proactive issue resolution
- Collaborated in Agile teams using Jira, Git, and Bitbucket workflows
- Contributed to building high-availability systems supporting multiple users and real-time data updates
- Participated in code reviews and implemented best practices for clean, maintainable code

04/2022 - 10/2022

Web Developer Intern

Aganitha Cognitive Solutions

- Developed full-stack web applications using React.js, Node.js, HTML, CSS, and SQL
- Built responsive and user-friendly UI components following modern UI/UX principles
- Assisted in backend development, API creation, and database management
- Designed wireframes and prototypes using Figma for improved user experience
- Gained hands-on experience in end-to-end software development lifecycle

09/2019 - 04/2022

Technical Support Engineer

Accenture Solutions Pvt Ltd

- Diagnosed and resolved complex technical issues for international clients, ensuring SLA compliance
- Investigated backend and system-level issues, identifying root causes and implementing fixes
- Analyzed logs and application behavior to troubleshoot production errors
- Collaborated with development teams to resolve critical issues and improve system stability
- Maintained documentation for recurring issues and contributed to knowledge base systems
- Developed strong analytical and problem-solving skills in high-pressure environments

EDUCATION

05/2026 - Present

Data Analytics and Artificial Intelligence

Steinbeis University

Master of Business Administration

2015 - 2019

Electronics and Electrical Engineering

Osmania University

Bachelor of Engineering

CERTIFICATES

JavaScript and Node.js

TestDome

React

HackerRank

MTA Certification in JavaScript

Microsoft

SKILLS

REST APIs

Docker

GitHub

Postman

PostgreSQL

SQL

MongoDB

Express.js

Node.js

Context API

Redux

React.js

TypeScript

JavaScript

CSS

HTML
